TOUCHMARK PRESENTS “EYES OF MARCH” FOCUS ON VISION LOSS

EDMOND, Okla. — According to the National Institutes of Health, age-related macular degeneration is a leading cause of vision loss in people 60 years and older. To help raise awareness of this important topic, Touchmark at Coffee Creek retirement community is offering a special presentation: “The ‘Eyes’ of March are Upon Us: Macular Degeneration.”

The event runs from 2 to 4 p.m. Thursday (March 15). Emily Bussey, O.D., with The Eye Care Center, will speak on the issue. Also, vision and glaucoma screenings will be offered, sponsored by BVA Advanced Eye Care.

Open to the public, the presentation will be held in the Grand Hall of Touchmark at Coffee Creek, 2801 Shortgrass Road in north Edmond. There is no charge, but people need to register by calling 405-340-1975 by Wednesday, March 14.

This is the final session in a three-part educational series for adults, which kicked off in January.

“Touchmark believes in promoting health and wellness throughout one’s life, which is why we’re working with local health professionals to offer this educational series,” says Touchmark Executive Director Jamie Ham.

For more information, contact Touchmark at Coffee Creek at (405) 340-1975 or visit Touchmark’s Web site at TouchmarkEdmond.com.
